CATALOGUE ESSAY

The TVR Griffith is a motor car from TVR Motor Company, with rear wheel drive, a Front, Longitudinally Mounted and a 2 door 2 seater fixed-head coupé body style. Powering the new TVR Griffith is a naturally aspirated 5.0-litre Cosworth-enhanced V8, that develops power and torque figures of 500 bhp / 507 PS / 378 kW at 8500 rpm and 424 Nm / 312 ft lb at 6000 rpm respectively. The engine delivers its power through to the wheels by means of a 6 speed manual Tremec Magnum XL. Employing Gordon Murray Design's innovative iStream architecture with carbon composite structure and body panels, the new TVR Griffith weighs just 1.250 kg / 2.756 lbs, offers exceptional torsional rigidity and a perfect 50:50 weight distribution. Its maximum speed claimed is 320 km/h, which is 208 mph.
